*IT'S NOT SO MUCH ABOUT WHAT WE CAN DO,  
BUT RATHER WHAT YOU NEED DONE.*

Our Staging, and A/V solutions are so diverse, ever so creative and extraordinarily eye-opening; it'll take more than a "friendly neighbor" conversation to grasp the entirety of our design and staging capabilities. Stage Right knows planning is the "not-so-secret" to success.

In our business, asking questions, lots of questions, is a necessary step in building a vision from ground up to production.

*DO YOU HAVE AN IDEA BUT DON'T QUITE KNOW HOW TO ACCOMPLISH IT?*

Our first goal is to understand exactly what your imagination bubble contains, then plan solutions involving budget, size, sound and interactivity to make your idea, big or small, become reality.

*PRIDE & OWNERSHIP IN EVERY PROJECT*

We take pride in every single project our team handles. With almost 20 years of experience under our belts, we are best suited to develop and produce inspired solutions for ideas big and small.

*THOUGHTFUL & PROFOUND... YOU & US.*

We want to hear what's on your mind. Your ideas are ultimately the most valuable fuel behind our two decades of success.

Give us a ring, shoot us an email or drop by our office so we get a chance to pick your brain\*.

Located in the only building left from the 1893 World's Fair, the Museum's building offers classic Greek architecture with ionic columns, caryatids, marble floors and a stunning vaulted rotunda. Inside, 14 acres of exhibit space houses hundreds of interactive Exhibits, offering a variety of unique settings for filming, including: a real WWII captured German submarine; a cantilevered Boeing 727 airplane that guests can enter; America's first diesel-electric, stainless steel passenger train; a true-to-life replica of an Illinois coal mine; a recreation of a street from 1910; and a model railroad with 1,400 feet of track showcasing a trip from Chicago to Seattle.
